PROFILE

BE Computer Engineering graduate with hands-on experience building and deploying full-stack applications using Python/Django and Java/Spring Boot. Completed an industrial internship at Elite Softwares, Pune delivering a production-ready e-commerce platform. Comfortable across the full stack, with additional working knowledge of systems, networking, and hardware fundamentals.

INTERNSHIP

Elite Softwares Pvt. Ltd.

Dec 2024 – Feb 2025

Python-Django Framework Intern

Wakad, Pune

- Built **SeizeDeals**, a full-stack Django e-commerce platform with product management, cart with size/color variations, and **Razorpay** payment gateway (UPI, cards, net banking).
- Implemented user authentication, automated order confirmation emails, payment invoice generation, and a custom admin dashboard with full CRUD operations.
- Followed MVT architecture, OOP principles, Bootstrap 5 responsive design, and Git version control.

PROJECTS

eRecyclo – E-Waste Management Platform | Django, YOLOv8, PostgreSQL

[GitHub](#)

- Built a multi-role platform (Client, Vendor, Collector, Admin) with **YOLOv8** object detection for automatic e-waste classification and auto-valuation of uploaded device photos.
- Implemented GPS-based collector assignment (Haversine formula), double OTP pickup/delivery verification, wallet payments, and PDF certificate generation using ReportLab.

SeizeDeals – E-Commerce Platform | Django, Razorpay, Bootstrap 5, SQLite

[GitHub](#)

- Developed a full-stack e-commerce site with product categorization, cart with variation support, and Razorpay API integration with server-side payment signature verification.
- Built automated order and invoice emails via Django SMTP.
